**Subj ct:** FW: Round 9 Groundwater Monitoring Report for Site 2 and 3

Tim, Bob,

Good work. IEPA seems happy with our Supplside and Forrestal groundwater monitoring work. We are moving in a systematic and deliberate fashion, which makes life easier for everyone!

Thanks

**Subject:** Round 9 Groundwater Monitoring Report for Site 2 and 3

Bill,

The Illinois Environmental Protection Agency (Illinois EPA or Agency) is in receipt of the Draft Long-Term Groundwater Monitoring Report Round 9 for Site 2 -Forrestal Landfill and Site 3 - Supplside Landfill, Naval Station Great Lakes, Great Lakes, Illinois. It was dated February 2009 and was received at the Agency on March 3, 2009. This report summarizes the results of the first 9 rounds of quarterly groundwater monitoring for those two landfills which occurred between August 2006 and November 2008.

Illinois EPA has conducted a brief review of the submittal and has generated no comments. Please continue the groundwater monitoring at these two sites as appropriate. An official comment letter has not been drafted at this time. If the Navy would like to receive this message in hard copy, please let me know and one will be submitted.

If you have any questions regarding this correspondence, you may contact me at (217) 557-8155 or via electronic mail at [Brian.Conrath@illinois.gov](mailto:Brian.Conrath@illinois.gov).

Sincerely,

Brian A. Conrath
